Contents

FoxML Core - Source-Available License

FoxML Core is **source-available** with a commercial license required for organizational use.

Document Hierarchy: In case of any conflict, the full text of `LICENSE` and `COMMERCIAL_LICENSE.md` controls. `COMMERCIAL_LICENSE.md` is the authoritative and controlling document for all commercial licensing terms, definitions, and obligations.

[WARNING] ORGANIZATIONAL USE REQUIRES A PAID LICENSE

If an organization uses this, they need a license.

Organizational Use includes: - Any use by or for a company, university, lab, or other organization - Any internal evaluation, pilots, PoCs, dev/staging, or production use - Any use supporting revenue, operations, services, or internal tooling - Any evaluation/pilot done by an organization - Any use by employees, contractors, interns, or affiliates in the scope of their work

Free use is limited to: - Personal use (individual, non-commercial, not for any business purpose) - Non-commercial academic research at qualifying tax-exempt institutions (see `LICENSE` for full definition)

Unauthorized organizational use is copyright infringement.

[EMAIL] **jenn.lewis5789@gmail.com** | Subject: `FoxML Core Commercial Licensing`

Commercial licenses typically start in the low five figures annually. All commercial licensing begins with a paid pilot. See `LEGAL/SUBSCRIPTIONS.md` for details.

Free Use (No License Required)

Personal Use

You may use FoxML Core for free if: - You are an individual using it in your personal capacity - You are not using it as an employee, contractor, or agent of any business, organization, or entity - You are not using it for the benefit of any third party - You are not using it in connection with any commercial activity

Non-Commercial Academic Research

You may use FoxML Core for free if: - You are at a degree-granting educational or non-profit research institution - The institution is recognized as tax-exempt under applicable law - The institution is not owned, controlled by, or operated for the benefit of any commercial entity - Research results are not used to support commercial operations, trading, revenue-generating activities, or any business purpose

See `LICENSE` for the complete definition of free use.

Commercial License (Required for Organizational Use)

Any organizational use requires a paid commercial license.

This includes: - Any use by or for a company, university, lab, or other organization - Any internal tooling, deployment, pilot, PoC, or evaluation - Any use by employees, contractors, interns, or affiliates in the scope of their work - Any use in development, testing, staging, or production environments within a business context

Commercial licenses provide: - Permission to use FoxML Core for organizational purposes - No source code disclosure obligations - Ability to modify and deploy internally - Integration into proprietary systems - Standard commercial protections

Pricing: - Commercial licenses typically start in the low five figures annually - All commercial licensing begins with a paid pilot - Pricing based on team/desk size, not total company headcount

To obtain a commercial license: [EMAIL] **jenn.lewis5789@gmail.com**
Subject: `FoxML Core Commercial Licensing`

See `COMMERCIAL_LICENSE.md` for complete commercial license terms.

Which License Applies?

You need a Commercial License if: - You are using FoxML Core for any organizational purpose - You are a business, organization, or institution - You deploy internally for operational purposes - You integrate into proprietary systems - You provide services to third parties

You may use it for free if: - Your use is purely personal (individual, non-commercial) - Your use is non-commercial academic research at a qualifying tax-exempt institution

If you're unsure, contact us. Default assumption for any organization: commercial license required.
